

PROJECT PROFILE · HOSTING & CLOUD INFRASTRUCTURE

Yess Host

Fast, secure hosting built for growth.

International English Edition · v1.0 · 24 August 2026

Parent group	Yess Bangla Private Limited
Category	Hosting & Cloud Infrastructure
Founded	2019
Reach	Multi-region, BD-first
Audience	Developers, agencies and businesses building online.

01

THE VENTURE

Overview

Yess Host is enterprise-grade infrastructure for everyone — from a first portfolio site to a multi-region SaaS. NVMe storage, isolated containers, automated backups and a tier-3 support desk that actually answers.

02

WHAT WE DELIVER

Highlights

- Shared, VPS and cloud hosting
- Domain registration and SSL
- Managed servers with 99.9% uptime
- 24/7 technical support

Yess Bangla Private Limited

Office: Block-A, Road-3, House-127 (Green View) (1st Floor), Mirpur-12, Dhaka-1216

Corporate Office: Section-11, Block-A, Main Road-3, Plot-10, Mirpur, Pallabi, Dhaka - 1216

Cell : +88 01916211111 **E-mail :** yessbangla.bd@gmail.com **Web :** www.yessbd.com

03

OFFERINGS

Services

Web Hosting · Cloud VPS · Domains & SSL · Managed Servers

04

WHY CLIENTS CHOOSE US

Signature strengths

NVMe everywhere

Every plan runs on NVMe storage with HTTP/3 and global caching out of the box.

One-click stacks

WordPress, Laravel, Next.js, Node, n8n and 30+ apps in under a minute.

Real humans, 24/7

Median first-response under 4 minutes — by chat, ticket or phone.

05

CASE STUDY

In practice

Challenge

Local hosting was slow, oversold and unsupported — agencies were forced to send clients to overseas providers and absorb the latency and billing complexity.

Our solution

Yess Host built a BD-first, multi-region cloud with NVMe storage, one-click app stacks, automated backups and a tier-3 support desk staffed in-country.

Delivery phases

1. Discover

Workload audit with 40 agencies, baseline benchmarks and an SLA design workshop.

2. Design

Plan ladder, control panel UX, migration tooling and a transparent status page.

3. Build

Multi-region nodes, automated backups, WAF, DDoS shield and a 30+ app marketplace.

4. Launch & grow

Free migrations, partner programme for agencies and quarterly capacity expansion.

06 TOOLING

Capabilities & stack

KVM, LiteSpeed, Cloudflare, Acronis Backup, Imunify360, Prometheus

07 RESULTS

Measured outcomes

Network uptime	99.99%
Avg. TTFB (BD)	82ms
Sites hosted	18,000+
Support response	<4 min

08 TESTIMONIAL

Client voice

"We migrated 230 client sites from a US provider to Yess Host in a weekend. TTFB dropped from 480ms to under 100ms in Bangladesh and our support tickets to clients fell by half."

— Rifat Mahmud · Founder & CTO, Codemen Solutions
