05

CASE STUDY

In practice

Challenge

A national distributor was running 11 disconnected spreadsheets and three legacy desktop apps — orders were being missed, inventory was wrong by 18%, and finance closed the books two weeks late.

Our solution

Yess Soft replaced the legacy stack with a single multi-tenant ERP — orders, inventory, fleet and finance — wired into a real-time analytics layer and mobile apps for the field team.

Delivery phases

1. Discover

Process mapping with 14 stakeholders, KPI baselining and an executive scorecard.

2. Design

Role-based UX, design system and clickable prototype validated with end-users.

3. Build

Two-week sprints, automated test suite, weekly demos and zero-downtime deploys.

4. Launch & grow

Phased rollout across 7 depots, training videos and a 90-day improvement retainer.

06 TOOLING

Capabilities & stack

TypeScript, React, Node.js, PostgreSQL, Redis, AWS, Cloudflare

07 RESULTS

Measured outcomes

Inventory accuracy	99.4%
Order cycle time	-61%
Finance close	3 days
Uptime	99.97%

08 TESTIMONIAL

Client voice

"Yess Soft replaced eleven spreadsheets and three legacy apps with one ERP. Our depots now close the books in three days instead of two weeks — and our field team finally trusts the inventory numbers."

— Sharif Anwar · Chief Operating Officer, Meghna Distribution Ltd.
